

Airpay Academy 2.0 — Complete Validation Matrix

UI/UX + Features + Business Logic — Per Role

Date: April 2026 | **Platform:** Moodle 4.5 + BizLMS + airpayux theme **Data:** Production import (2,871 users, 411 courses, 3 tenants)

Validation Approach

For each of the 6 user roles, we test three dimensions:

- 1. **UI/UX** — Does every page render correctly? Layout, icons, dark mode, mobile, typography
- 2. **Features & Tools** — Does every applicable feature work? Links, buttons, AJAX, navigation, forms
- 3. **Business Logic** — Does data scoping, permissions, calculations, and workflow behave correctly?

Each item is marked: PASS / FAIL / PARTIAL / NOT TESTED / NOT APPLICABLE

ROLE 1: SITEADMIN (academy@airpay.co.in)
